Okta can send you a text message with a recovery code. This fea useful when you don't have access to your email.	iture is
Number successfully verified!	

INFUSION

Multi-factor Authentication

- The next time you log into Infusion you will be asked to 'Set up multi-factor authentication'. Setting up multiple multi-factor authentication options is a great way to ensure your account is secure and provides you with options to reset your password in future should you forget it. Your phone number entered here is used for multi-factor authentication and the security of your Infusion account. It's not used in any other way by Fusion5.
- 2. To set up SMS Authentication click 'Setup'.

 a. Select your Country and enter your mobile number, then click 'Send Code.' You will receive the verification code on your mobile device within 30 seconds.
