

# Unleash your team's potential:

## Human-centred learning with Jemini

**If your current training systems treat your team like cogs in a machine, that's exactly what you'll get.**

You can't deny it — generic courses and one-size-fits-all approaches leave employees disengaged and uninspired. At Jemini, we believe your team deserves better. And so do you.

That's why we created a Learning Management Solution designed for the three-dimensional humans who power your organisation. Jemini goes beyond the "worker drone syndrome" to truly transform engagement and genuinely empower your people.

### Don't train — Transform

**Blast past boring training:** Ditch the paperwork, ditch the confusion. Jemini makes learning fast, easy, and engaging.

**Compliance made simple:** Focus on building a great team, not chasing deadlines. Jemini keeps you on top of compliance, stress-free.

**Unleash learning enthusiasts:** Turn passive trainees into active learners. Jemini helps everyone reach their full potential.

**Crystal clear learning paths:** No more getting lost in the maze. Jemini provides clear instructions and resources, every step of the way.

**Data-driven decisions:** Gain insights on how your team learns. Make informed choices to build a future-proof workforce.

**Imagine the potential of a team where everyone has clear goals, the tools to grow, and feels truly valued. That's the Jemini difference.**

### Level up your team training with powerful features

Jemini's features empower you to deliver truly impactful training programs. Here's how Jemini can help you:

#### Grow with your team

**Scalable:** Easily adapt your training programs as your organisation expands. No need to rip and replace your system every time you grow.

#### Effortless management

**User-based access:** Control who can view and edit training plans, keeping things organised.

**No-nonsense course assignment:** Drag-and-drop functionality makes assigning training a breeze, along with automatic progression or manager approval.

## Empower every learner

**Personalised learning plans:** Assign tailored training based on individual roles and their actual, specific goals.

**Encourage participation:** Instantly see who has started, not started, or completed courses.

**Real-time tracking and progress analytics:** Monitor progress and identify areas where employees need extra support with easy visual tracking.

**Measure success precisely:** Evaluate training programme effectiveness with intuitive metrics and analytics.

## Always stay current

**True SaaS (Software as a Service):** Benefit from the flexibility and convenience of a cloud-based system — access it from anywhere, anytime.

**Automatic updates:** Receive automatic updates with new features and improvements, without any IT hassle.

**Security and compliance:** Enjoy enterprise-grade security and peace of mind knowing Jemini adheres to industry standards.

**Cost-effective:** Minimise IT overhead with a subscription-based model that includes maintenance and support.

## Effortless management

**User-based access:** Control who can view and edit training plans, keeping things organised.

**No-nonsense course assignment:** Drag-and-drop functionality makes assigning training a breeze, along with automatic progression or manager approval.

## Simplify compliance

**Stay ahead of the curve:** Automatic reminders ensure compliance training gets completed on time, every time.

**Risk reduction:** Simplify complex compliance processes and minimise the risk of non-compliance.

## Engage and retain your talent

**Enhance learning:** Integrate with a variety of eLearning providers to keep training fresh and engaging.

**Document management and link integration:** Provide employees with easy access to all the resources they need.

---

## Where to next with Jemini
